CHISD Superintendent Billy Snow Resigns

March 8, 2019
For Immediate Release

Dr. Billy Snow, Superintendent of the Cedar Hill Independent School District, through his attorney has advised the Board of Trustees of his resignation from the District. Dr. Snow is undergoing treatment for medical concerns that he wishes to remain private. Although the District started an investigation of possible violations of the Statement of Values as expressed in our Employee Handbook, the District did not complete its investigation after learning of Dr. Snow's intent to resign. The employees who were interviewed asked that their identifications remain anonymous if possible as none intended to pursue any legal complaint nor did any wish to be identified or subject to public questioning. The District respects these valuable employees and respects their privacy. Under Dr. Snow's leadership, the District has rolled out key initiatives, such as the Early College Academy, the Montessori program at Lake Ridge Elementary and the Longhorn Essentials. The Board of Trustees is fully committed to these programs and has complete confidence in the existing group of outstanding leaders tasked with their implementation. The District will begin the process of seeking applicants for the position as soon as possible.

Dr. Snow said, "It has been my honor and pleasure to serve the leaders, staff and scholars of Cedar Hill ISD. I'm so proud of the work we have done together and the progress made in such a short time. I have absolutely no doubt that the district will continue to do great things in the future. I ask for your prayers as I continue to address my health concerns. God bless CHISD, the community and all Longhorns."
